PERSONAL PROJECTS

Fashion E-commerce Website UI/UX Design (07/2024 - 07/2024) ↗
- Designed an engaging fashion E-commerce website in Figma focused on providing a seamless user experience.
- Presented products in a smooth, visually appealing layout to enhance product visibility and engagement.
- Created dedicated sections for different categories, enabling easy navigation and product discovery.

E-Commerce Website - UI/UX Design (09/2024 - 09/2024) ↗
- I designed an e-commerce website using Figma, focusing on a clean and modern layout. The design includes a user-friendly interface, with clear navigation, product listings, and a streamlined checkout process. I used responsive design principles to ensure that the website looks great on both desktop and mobile devices.

Chatting Website - UI/UX Design (11/2024 - 11/2024) ↗
- Designed a modern chat application in Figma with a focus on intuitive navigation and user-friendly interface.
- Included key sections such as Chat section, Friends section, Notification section, Groups section.
- Used a well-chosen font style and harmonious color palette to enhance visual appeal and consistency.

Mbachaiwala-Clone (08/2024 - 08/2024) ↗
- Developed a full-featured clone of the Mbachaiwala website using React.js, with a focus on creating a seamless user experience. Integrated Framer Motion to enhance the interface with smooth animations, making the UI more dynamic and engaging. This project showcases my ability to build responsive, interactive web applications with modern frontend technologies.
